-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

There is no clear antecedent basis for "the jaw arm" as recited in claim 1, line 7.

### ***Claim Rejections - 35 USC § 102***

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1, 2, and 4-6, as understood, are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Forster et al..
3. Claims 1-6, as understood, are rejected under 35 U.S.C. 102(e) as being anticipated by Patton.

Patton shows a gripper assembly comprising cam slots (26) having substantially straight end portions and a curved middle portion (see Fig. 2).

4. Claims 1-4, as understood, are rejected under 35 U.S.C. 102(b) as being anticipated by McPherson.

McPherson shows a gripping device comprising a cam slot (22) having a generally straight locking or clamping portion (60) and a curved pivoting portion (i.e. the transition portion between 58 and 60 as best shown in Figure 5).

### ***Specification***

5. The disclosure is objected to because of the following informalities:

On page 6, line 12, the section line "IV-IV" should be changed to -VIII-VIII--.

On page 7, line 16, the number "51b" should be changed to -26b--.

On page 17, line 15, the number "100b" should be changed to -103--.

On page 23, line 16, the section line "D-D" should be changed to -C-C--.

Appropriate correction is required.

### ***Conclusion***

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Esser et al. shows a gripper having either curved (see Fig. 1) or straight (see Fig. 4) portions.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dean J. Kramer whose telephone number is (703) 308-2181. The examiner can normally be reached on Mon., Tues., Thurs., Fri. (7:00-5:00).
